

CONTRACTORS for DRAINTILE INSTALLATIONS, SUMP PUMP INSTALLATIONS, & SUMP PUMP REPAIRS

past or present, met the city's licensing requirements. They do not work for the City of Robbinsdale and therefore should be considered as independent contractors. An independent contractor is a person, business, or corporation that provides goods or services to another entity under terms specified in a contract or within a verbal agreement. The City of Robbinsdale does not guarantee the following contractors' work performance nor recommend their services. Additional contractor listings can be found in the yellow pages, by internet search engine, through the State of Minnesota's Dept of Labor, or simply by word of mouth. All contractors that install draintile systems must either be licensed by the State of Minnesota or by the City of Robbinsdale. The City of Robbinsdale shall not be held liable or responsible for any event that takes place between these contractors and its customers.

***PLEASE NOTE: City Contractor licenses may be renewed at any time during the calendar year therefore many contractors will wait to renew their City license until they receive a job contract from a resident or business. If you do not see a particular contractor on the following list, it may simply mean that they are State Licensed and they do not need to obtain a City License or they have simply not renewed a previous City License.
